-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 2 is objected to because of an informality, which can be corrected as follows: In line 5, "cotraction" should be replaced by --contraction--. Appropriate correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Williamson, IV et al. (5,716,370). Williamson, IV et al. disclose, in figures 12-14, an apparatus for effecting a desired geometric change in the annulus of a heart valve and limiting mitral leaflet prolapse (by installation of a prosthetic heart valve), where the apparatus and method includes deployable first and second plication bands (150), where each band comprises first and second substantially straight and parallel legs adapted to pierce heart valve tissue (1) and gather together pierced tissue to contract the annulus upon deformation of a bridge connecting the legs and a linking construct (19) connected proximate a first end of the first plication band and proximate a second end of the second plication band.

Allowable Subject Matter

4. Claim 2 is allowed.

Art Unit: 3731

5. The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, discloses a method for effecting a desired change in the annulus of a heart valve and limiting mitral leaflet prolapse, where the method includes, inter alia, the deployment of first and second plication bands to heart valve tissue, where each band has first and second substantially straight and parallel legs and a deformable bridge connecting the legs, and where the method includes a linking construct extended across a mouth of a valve, where the linking construct is connected to first and second plication bands, which are deployed to first and second portions of tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

6. Applicant's arguments with respect to claim 1 has been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3731

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
